Return on Investment

A typical 200-employee company has a four million dollar payroll. The potential savings generated by automating Time & Attendance operations adds as much as \$1/4 million to your bottom line! This 6.875% labor savings is based on a study performed by the American Payroll Association and Robert Half in calculation, lost time and error factors alone. The additional benefit of better management decisions based on accurate labor information, and automatic exports to payroll are more difficult to place a value on.

SAVINGS FACTOR	50 EMPLOYEES	100 EMPLOYEES	250 EMPLOYEES	500 EMPLOYEES	1000 EMPLOYEES
Calculation	\$3,900	\$7,800	\$19,500	\$39,000	\$78,000
Lost Time	\$52,000	\$104,000	\$260,000	\$520,000	\$1,040,000
Human Error	\$15,600	\$31,200	\$78,000	\$156,000	\$312,000
TOTAL	\$71,500	\$143,000	\$357,500	\$715,000	\$1,430,000
