

## ENTERPRISE CORRECTIONS TABLET SOLUTION: SAFE, SECURE TABLETS FOR THE INCARCERATED

The standard facility kiosk solution has gone mobile, and Enterprise Corrections has you covered. Our corrections-grade, Android-based tablets provide convenience for using our advanced suite of applications and can replace or supplement the wall mount kiosk.

Our Tablet Solution is designed to provide correctional facilities with a secure, wireless device and innovative technology customized to their specific needs from our full suite of applications and streaming content.

### Key Benefits

**Convenience:** Adding tablets to replace or supplement wall-mounted kiosks increases inmate access to applications and services, keeping them productive and/or busy.

**Operational Efficiency:** Streamlining documents, requests, grievances, and commissary ordering enhances facility operations.

**Inmate Communication:** Enhancing connections with friends and family through email, text, phone, video visitation, and video chat applications helps to maintain essential relationships during incarceration.

**Educational Content:** Providing access to public domain books, business skills, soft skills, job readiness, and a law library aids inmate self-improvement and preparation for reentry into society.

**Entertainment Options:** Offering movies, TV, music, and games helps in keeping inmates occupied and can contribute to a reduction in aggressive behaviors.
