

# Payments for Enterprise Supervision

## A Convenient Portal For All Your Payment Processing Needs

Payments for Enterprise Supervision is a client-facing solution that makes it easy for your supervision department to accept online payments from clients for any fines, fees, restitution, or any monies owed.

Since Payments is a cloud-based product, it is accessible from any device at the clients' convenience, enabling them to make payments from anywhere, at any time.

Payments has a flexible fee structure and there are no subscription or licensing costs to worry about, meaning you can provide predictable rates for your online payers. Plus, you have the flexibility to pass along the fees or absorb them.

## Maximize Electronic Payment Adoption

Payments is a tightly integrated, secure payment platform for online payments. Enterprise Supervision users may maximize electronic payment adoption with the following features:

- A secure payment platform, compliant with PCI/PA-DSS standards
- Real-time payment processing that reflects updates to client account balances immediately in their account

### COLLECT PAYMENTS AT ANY TIME

Provide clients 24/7 access to make payments at their convenience

### IMPROVE THE CLIENT EXPERIENCE

Handle payment processing checkout, fee handling, and receipts consistently

### LEVERAGE TYLER INTEGRATIONS

Tyler Payments is fully integrated with Tyler Supervision for seamless data sharing and payment updates
