FOR IMMEDIATE RELEASE

Data Collection Moving into Mifflinburg School District

Union County Reassessment Update

Union County, PA – Union County is embarking on an important initiative to ensure fair and equitable property assessments for tax purposes. For the first time since 2006, the County will conduct a comprehensive property reassessment, in partnership with Tyler Technologies, to update property values and reflect current market conditions. This reassessment is designed to ensure that property taxes are distributed fairly across all residents.

To help property owners understand the reassessment process, Union County will hold a series of public meetings. The fourth public meeting will take place on May 14, 2026, at the Mifflinburg High School Auditorium from 6:00 PM to 8:00 PM. These meetings will provide an opportunity for residents to learn more about the reassessment, ask questions, and gain a deeper understanding of the reassessment process.

"We are excited to begin this critical project that will help ensure fair and accurate property assessments," said Ryan Zuck, of Tyler Technologies. "This reassessment will ensure more equitable tax distribution and reflect the current real estate market. We encourage all property owners to attend the public meeting and stay informed throughout the process."

What Property Owners Can Expect:

- **Data Collection:** Tyler Technologies' data collectors will begin to visit Union County properties to gather necessary details for accurate assessments.
- They will not enter homes, and property owners will not need to do anything for the initial data gathering.
- Data Collectors can be identified by their bright yellow vests, County issued photo ID badges, and also by visiting the project website to view a photo of the person who is gathering data at your property.
